Profile

I'm obsessed with solving complex problems using React, React/Redux, and Node by building web applications with an emphasis and accessibility and usability.

I'm currently looking to contribute my skills to a team where I can prove my skills while growing in my capabilities in:

1. Web Application development.
2. Mobile Application development.
3. Websites.
4. Web service development and integration (RESTFUL API's)
5. Building Defi apps, Dex , DAO'S and Smart contract powered softwares.

I work with Javascript and solidity also have knowledge in react.js,redux, redux query, Rust, Ethers js, html, css, node Js , SQL and non SQL databases.
